Course Description:
This course will equip the student with the skills required of a nurse assistant to provide basic care to individuals in a variety of health care settings. It consists of one two-week module in class plus 108 hours required clinical application for a total of 168 hours and six weeks during the day.

Course Objectives:
- Identify the role of a certified nursing assistant in the nursing team's care of the client.
- Demonstrate the ability to interact and communicate with residents, peers, instructor and staff.
- Assist residents in attaining and maintaining functional independence.
- Exhibit behavior in support and promotion of resident's rights.
- Demonstrate accurate and timely documentation related to the provision of basic care of the resident.
- Provide a safe environment, being alert for potential hazards and taking appropriate measures when a hazard is identified.
- Practice and participate infection control measures to help prevent or control the spread of infections.
- Meet the client's physical needs through activities such as feeding, bathing, dressing and toileting.
- Demonstrate performance of skills and procedures in lab prior to client contact.
- Develop skills necessary for health care provider applications.
- Observe procedures common in the health care environment and apply knowledge.
- Use equipment and supplies appropriately.
- Demonstrate correct style of charting for the facility to include legibility, clarity, conciseness, using appropriate medical terminology and abbreviations. Correct errors in a legally acceptable manner.
